Adaptec® Series 8 RAID: 81605ZQ, 8885Q, 81605Z, 8885, 8805, 8405
12 Gbps PCIe Gen3 Product Family High-Port SAS/SATA RAID Adapters

Maximum Performance
Data center, IT, and general consumer server environments have a broad range of requirements — from basic connectivity to extreme data storage capacities. The effectiveness at which their data is accessed and protected is crucial to their ultimate success. Microsemi Adaptec® 12 Gbps PCIe Gen3 Series 8 RAID adapters, coupled with 12 Gbps SSDs, provide maximum read/write bandwidth and IOPS for the most performance-hungry transactional and database applications.

Series 8Q with Adaptec maxCache 3.0
Advancing the performance capabilities of SSD caching to a broader set of application workloads, the Series 8Q with maxCache 3.0 supports read and write back caching. By caching writes to a redundant SSD cache pool (RAID1, RAID1E or RAID5), maxCache 3.0 leverages the performance and latency capabilities of SSD technology for both read and write workloads. The read caching function is also improved with maxCache 3.0, with additional optimizations to the learned-path algorithm. Adaptec maxCache 3.0 SSD Caching software is the only caching solution that supports up to 2 TB of SSD cache.

Integrated Cache Protection
The Series 8 family continues Adaptec’s battery-free portfolio. Series 8 adapters can be combined with the AFM-700 flash-based cache protection module (sold separately) to enable instant cache protection. New with Series 8, the Adaptec 81605Z and 81605ZQ models have flash backup embedded on the board, eliminating the need for a daughterboard and further enabling Adaptec customers to do more with less.

Advanced Data Protection and Ease of Use
Advanced data protection and ease of use have not been forgotten in Series 8. Adaptec RAID Code (ARC) delivers maximum reliability with an industry-leading feature set, including all of the RAID levels the industry has come to expect, plus unique features like Flexible Configuration modes for the adapter, Hybrid RAID, and Optimized Disk Utilization (ODU) where no available space is wasted. Adaptec’s maxView provides an HTML5 web interface, which can be used in standard desktops and mobile browsers, for all storage configuration and management needs.

Benefits
- Ideal for 12 Gbps performance-hungry server and workstation platforms, without compromising proven Adaptec reliability
- Provides high I/O transaction and high bandwidth processing; solutions that reduce energy consumption and maintenance costs

Key Differentiators
- maxCache 3.0 caching software (Series 8Q only)
- Cache protection via third generation ZMCP; AFM-700 (integrated on 81605Z and 81605ZQ, optional for rest of Series 8 products)
- Up to 16 native SAS/SATA ports in a LP/MD2 design
- 12 Gbps and 6 Gbps compatibility with HDD or SSD SAS/SATA devices
- 12 Gbps throughput per SAS port using mini SAS HD connectors
- Microsemi’s 12 Gbps RAID-on-Chip (ROC), x8 PCIe Gen3 interface with 12 Gbps SAS ports to enable a new generation of performance
- >700K IOPS; 6.6 GB/s sequential reads, 6.2 GB/s sequential writes

## Adaptec® Series 8 RAID: 81605ZQ, 8885Q, 81605Z, 8885, 8805, 8405

### 12 Gbps PCIe Gen3 Product Family High-Port SAS/SATA RAID Adapters

### Key Software Features
- maxCache 3.0 caching software (Series 8Q only)
- Flexible Configuration: HBA Mode & Auto Volume Mode for automatic deployment
- Optimized Disk Utilization (multiple arrays per disk)
- Supports up to 256 SAS or SATA devices using SAS expanders
- Support for native 4K sector SAS and SATA devices in addition to 512-byte sector devices
- Hybrid RAID 1 & 10
- Quick initialization
- Online Capacity Expansion
- Copyback Hot Spare
- Dynamic caching algorithm
- Native Command Queuing (NCQ)
- Background initialization
- Hot-plug drive support
- RAID Level Migration
- Hot spares - global, dedicated, and pooled
- Automatic/manual rebuild of hot spares
- SES and SAF-TE enclosure management
- Configurable stripe size
- S.M.A.R.T. support
- Multiple arrays per disk drive
- Dynamic sector repair
- Staggered drive spin-up
- Bootable array support
- Support for Tape Devices, Autoloaders
- MSI-X support for all device drivers for all supported Operating Systems
- Secure boot support for the uEFI host BIOS
- USB image available on start.adaptec.com to boot maxView GUI from any USB device for enhanced GUI-based setup and offline maintenance

### Management Utilities
- Adaptec maxView Storage Manager
  - Web based GUI Management Utility
  - OS Support: Windows, Linux, Solaris, VMware
  - Remote configuration, monitoring & notification
  - Remote firmware updates
  - SMI-S Support
  - SMTP
- ARCCONF
  - Command Line Interface
  - SMI-S support for VMware
  - Adaptec BIOS Configuration Utility (CTRL+A)
  - Legacy configuration utility
  - Flashable BIOS support
- Adaptec uEFI BIOS Configuration Utility
  - HII based configuration utility
  - Flashable BIOS support
- Adaptec Event Monitor
  - Lightweight event monitoring and logging tool
- Distribute adapter events and notifies user

### Operating Systems
Microsoft Windows, Red Hat Linux, SUSE Linux, Fedora, Debian Linux, Ubuntu Linux, Sun Solaris, FreeBSD, VMware ESXi.
The latest drivers are available at start.adaptec.com

### Dimensions
MD2 - Low Profile 2.535” H x 6.6” L (64 mm x 167 mm)

### Operating Temperature
0 °C to 55 °C* (with 200 LFM airflow, without flash); 0 °C to 50 °C* (with 200 LFM airflow, with flash) Note: This adapter contains a powerful RAID processor which requires adequate airflow to operate reliably. Please install this card only into server or PC chassis with at least 200 LFM airflow.

### Operating Current
0.1 A @ 3.3 VDC; 1.2 A @ 12.0 VDC 8405, 8805, 8885, 8885Q; 1.0 A @ 3.3 VDC; 1.1 A @ 12.0 VDC 81605ZQ, 81605Z

### Regulatory Certification
CE, FCC, UL, C-tick, VCCI, KCC, CNS

### Environmental Compliance
RoHS

### MTBF
2 million hours at 40° C

### Warranty
3 years

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for communications, defense & security, aerospace and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices and precise time solutions, setting the world's standard for time; voice processing devices; RF solutions; discrete components; Enterprise Storage and Communication solutions, security technologies and scalable anti-tamper products; Ethernet solutions; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, Calif., and has approximately 4,800 employees globally. Learn more at www.microsemi.com.
